Dear Mitchell:

I am sending 150 placards for the Sept. 6th game in Ebbets Field to New York % Jock Waters. Due to the fact that we are pooling the money for that day, I am sure the Yankees will work hard to bring all the fans from New York they can. I know the other Group will not want the placards out, due to the fact they will be advertizing the game of the 13th, and you will have to really keep your eyes open to see that they get out and stay out. Please try to get all the newspaper cooperation you can. After all the Grays are in first place and if we had beat the Elites Friday night, we would have been tied with them for second. If the newspapers want to, they can cooperate and get some really good publicity. I will have our man send some stuff to them and also the Grays. Drop me a line who to send it to, if they will use some pictures or mats.

There is a lot of talk right now about Josh and Bankhead, Wells and Day, all this will help if you can get cooperation from them.

I hope you and Cincinnati got together on your dates from the 5th on. I called Leuschner and told him I had arranged for Cincinnati to take you the 6th, as I felt responsible for you being with a game. He had nothing to say except O. K. The Bushwicks situation never came up. I hope everything turns out all right and we can have decent weather.

Very truly yours,
